washing

wash. Always wash your clothes according to the garment label. Details about water temperature and cycle settings should be noted to guard against shrinkage and colour fading. Avoid overloading the machine.

water temperature. A number inside the wash symbol indicates the maximum temperature the garment should be washed in.

hand wash. Many delicate items require special attention and should be hand-washed alone as colours may bleed in the first few treatments. When washing by hand, always use cold water and make sure that all the detergent is dissolved prior to adding the garment. Rinse garment thoroughly.

bleaching

bleach. Always check for colourfastness prior to use and bleach in cold water only. Follow product directions for preparing the solution.

do not bleach. If the bleach symbol is marked with an "x", do not bleach.

drying

tumble dry. Always tumble dry according to care instructions on garment label. Dots inside the circle indicate temperature settings.

no dots = any temperature one dot = low heat
two dots = medium heat three dots = high heat

do not tumble dry. If the tumble dry symbol is marked with an "x", do not tumble dry. Delicate fabrics like silk, linen, acetate, rayon and viscose should never be put in the dryer.

dry flat. Lay garment flat to dry. Knit garments in particular should always be laid flat to dry to prevent stretching. Wrap knits in a towel, reshape if necessary and lay flat.

drip dry. Hang garment wet from a plastic hanger and let dry.

hang dry. Ensure all excess water is gently squeezed from the garment and hang from a line or bar.

ironing

iron. Always use the setting that corresponds with the type of fabric being ironed as some fabrics do not react well to high heat and steam. Dots inside the iron symbol indicate heat settings.

no dots = ironing is needed

two dots = medium temperature

one dot = low temperature

three dots = high temperature

do not iron. If the iron symbol is marked with an "x", do not iron or press with heat.

dry cleaning

dry cleaning. Always take dry clean only garments to a professional cleaner.

do not dry clean. If the dry clean symbol is marked with an "x", do not dry clean.
